

ELECTRIC REDUCTION GEAR

FAMILY CODE: **30574**

The electric reduction gear acts as a gearbox for electrical vehicles.

NON-EMITTED CO₂*: *under investigation*

MATERIAL SAVINGS*: *under investigation*

*Source: Life-Cycle Assessment (LCA) Europe. Based on a European study Material savings and non-emitted CO₂ on average compared with the new equivalent MOPAR genuine part. Values are given for information only, corresponding to the main seller of the similar products and determined according to a methodology approved by an independent company (Sphera methodology).

REMANUFACTURING STEPS

- Full dismantling of components
- Component checks (dimensions and functions)
- Clean and recondition all parts to their original condition
- Replace damaged or worn parts with new components

MAINTENANCE & REPAIR GUIDELINES

The reduction gear must be replaced when:

- There is noise during acceleration and deceleration

ADDITIONAL CHECKPOINTS

- Driveshaft
